SUMMARY

Passionate individual with a strong enthusiasm for the IT industry. Skilled in coding, software development, and problem-solving, with a keen interest in exploring various domains of technology. Adept at learning new programming languages and frameworks, making me adaptable to any software field. Committed to continuous learning and innovation, with a goal to contribute effectively to dynamic tech environments.

EXPERIENCE

Intern

Samsung SEED lab

Worked as an intern and full time job in Samsung SEED lab Positioned as Data Annotator -> responsible for labelling and categorizing data to improve machine learning objects .

Worked on Projects like semantic annotation, video annotation, labelling, 3D Capturing etc.

SKILLS

C

C++

Java (Rudimentary) Tally

HTML

CSS

Data Annotation

EDUCATION

**Master Degree MCA: BMS Institute of Technology and Management
(Pursing)**

Bachelor Degree BCA: Cambridge College-85 %(Bengaluru) 2023

PROJECTS WORKS

“Phishing Site Prediction”

This project aims to develop a phishing detection system that analyses URL characteristics, such as length, domain age, and special characters, to classify websites as legitimate or phishing. By using machine learning techniques on a dataset of known URLs, the system provides fast, lightweight, and real-time detection. This approach offers an efficient alternative to traditional content-based detection methods.

“Performance Comparison of Encryption Algorithms”

Data security is a crucial aspect of modern digital communication, especially in file sharing and storage. This mini-project presents a comparative analysis of three widely used encryption algorithms: RSA, DES, and AES. The objective is to evaluate their performance in terms of encryption speed, decryption speed, security strength, and computational complexity.

ACHIEVEMENTS

- Volunteered at Kere Habba, an environmental awareness initiative focused on lake conservation, where I actively engaged with the community to promote water sustainability and eco-friendly practices.
- Provided technical support and troubleshooting for staff and students, resolving issues related to software, hardware, and online platforms.
- Recognized as the "Best Employee" for consistently exceeding performance targets, demonstrating strong leadership, and contributing to the overall success of the team.

LANGUAGES

- **English, Kannada, Hindi, Telugu**(Full professional proficiency)

Declaration

I hereby declare that all the above mentioned information is true to the best of my knowledge and belief
